## Introduction

The Consumer Credit Market Report is issued by the National Credit Regulator. It is based upon returns which credit providers are required to submit in terms of the National Credit Act (NCA). The statistics presented in this report cover the quarters up to 30 June 2021 (2021-Q2).

The reporting requirements of the NCA differentiate between small credit providers, defined as credit providers for whom annual disbursements are less than R15 million, and larger credit providers, defined as credit providers for whom annual disbursement is more than R15 million. Credit providers with annual disbursements of more than R15 million are required to submit quarterly returns. Credit providers with annual disbursements of less than R15 million are only required to submit annual returns. The statistics included in the report follow the scope and definitions in the NCA. The report thus reflects all consumer credit, as well as agreements with juristic persons with a turnover or net assets of less than R1 million. It excludes all other juristic persons. The reporting quarters (Q) in the CCMR are as explained in the table below:

Quarters	Reporting period
Quarter 1 (Q1)	1 January – 31 March
Quarter 2 (Q2)	1 April – 30 June
Quarter 3 (Q3)	1 July – 30 September
Quarter 4 (Q4)	1 October – 31 December

“Secured credit” in this report refers to transactions which were classified as “Other credit agreements” in the previous Consumer Credit Market Reports. This credit type includes transactions that do not fall within any of the other categories in the NCA. It includes a range of secured credit agreements, such as pension-backed loans, Insurance-backed loans, retail furniture accounts and motor vehicle accounts and consists of all credit that is secured, other than mortgages and credit facilities. Detailed tables on the data shown in this report can be found in the Appendix.

Abbreviations - “year-on-year (y-o-y)” as used in this report refers to a comparison of the quarter ended June 2020 to the quarter ended June 2021 and “quarter-on-quarter (q-o-q)” refers to a comparison of the quarter ended March 2021 to the quarter ended June 2021. The totals reported in the “Credit granted” sections do not add up to the totals reported in the “Level of income” sections due to loans granted to juristic persons where the level of income is not reported by credit providers. This applies to all the credit types reflected in this report.
